EXTENSION TOUR

Day 1

Saturday 1st November

Transit from LHR to Houston, arriving at 18:35 local time (11:35 in UK)

A group of five Naturetrek participants met up with Richard at LHR for the company's first tour of Honduras. Although we were only travelling as far as Houston today, the flight took us 6,105 miles over the southern tip of Greenland, icy Canada, down the Great Lakes towards the southern states landing in Houston at 18:35.

Once through passport control we caught a shuttle bus to our hotel, picking up Susan on the way from another terminal. Once there, most of us dropped off our bags then took a taxi to the nearest restaurant and enjoyed a couple of welcome local beers. Back at the hotel we all made a note that the clocks went back an hour before calling it a night.

Day 2

Sunday 2nd November

Houston to Tegucigalpa. La Tigra NP entrance. Cloud forest birding

Weather in Tegucigalpa: Low cloud, drizzle, cool.

We had left our Houston hotel, managed to squeeze onto the first shuttle bus and were checked in at the airport by 07:30. Our flight was a little late but arrived early! We broke through the thick cloud and saw the city for the first time - quite a view! On arrival we met Alex, Elmer and Jafeth who looked after our bags and took us for a fantastic meal in a small cafe in the airport. Very impressive food and very welcome. We waited for our last two Highland Extension participants, Dennis and Margaret who arrived in good time from a slightly later Atlanta flight. Once fed and watered, we transferred to our first hotel high above the main city for a quick wash and brush up and our first opportunity for some birding. It took around half an hour to reach the NP entrance where the cloud and rain were no better. It was pleasing therefore to see some great birds in short walks around the approach road. First was one of the targets of the area – Bushy-crested Jay; a few at the roadside. We only really had a couple of hours in total so we moved on to another section of road where we saw the next target, Green-breasted Mountain Gem. Also White-eared and Magnificent Hummingbird. Other notable birds were Band-backed Wren and a confiding Mountain Thrush. There were a few other birds in the gloom that our fabulous guides pointed out, but we will have to save those for another day!

Well, it had been a very long day, so straight to a restaurant for a welcome dinner (no alcohol today as it was after 5pm on a Sunday), but there was certainly plenty of food to consume. We tried our best but were back at the hotel for 20:35 ready to sleep. An early start tomorrow.

Day 3

Monday 3rd November

La Tigra NP, United Nations Park (El Picacho)

Weather: Low cloud, light but persistent rain most of day, drier and clearer mid afternoon, cool.

After a warm drink and snack at the hotel we hit the road at 05:25. It was still raining, but let's see what the day brings. Half an hour later we stopped. Alex had suggested we try for Strong-billed Woodcreeper first. Once out of the bus there they were, three of them. Also Bushy-crested Jays, Guatemalan Flicker, Dusky-capped Flycatcher and some confiding Band-backed Wrens. A good start! A further stop and we saw Yellow-backed Oriole, Rusty Sparrow, the stunning Sparkling-tailed Hummingbird (and that wasn't even a male), Slate-throated Whitestart, Flame-coloured Tanager, Spot-breasted Oriole and a host of North American warblers here for the winter including Townsend's, Golden-cheeked, Black-throated Green, Wilson's and Tennessee. Amazingly it was still only 08:00 and time for our picnic breakfast by the visitor centre. Some great fresh fruits, granola and yoghurt, cake bread, teas and coffees - watched by a couple of Central American Agoutis.

We had intended to go further up the mountain but the weather was against us. After watching a Plumbeous Vireo we went back to lower elevations where there was a better chance of seeing birds. Here we found Slate-coloured Solitaire, Mountain Trogon, the very shy Rufous-browed Wren, flocks of Rufous-collared Robins and Clay-coloured Thrushes, Yellow-faced Grassquit, Common Bush Tanager and finally, our target, Blue and White Mockingbird.

Thanks to the rain we were pretty cold and damp so we returned to the hotel for half an hour to change. Then out to another area overlooking the city (if only we could see it!), where Alex had arranged for our BBQ lunch. Very welcome indeed. The post lunch walk was "infested" with woodpeckers and Clay-coloured Thrushes. There were so many Acorn Woodpeckers, Guatemalan Flicker and Golden-fronted Woodpecker. Finding Blue-crowned Motmots, Black-vented Orioles, Grace's Warbler, Black-headed Saltator, Ferruginous Pygmy Owl and Red-billed Pigeons took us to 15:30 and another first for the group, a break in the clouds. We took a few minutes to enjoy the view of Tegucigalpa. We were joined by a noisy group of Boat-billed Flycatchers and we heard Greater Pewee calling from down the slope. It had been an excellent day and we decided to head back to the bus and on to the hotel. Arriving at 16:00, we rested and freshened up before heading into the city for a meal.

Day 4

Tuesday 4th November

La Tigra NP; Panacam

Weather: Low cloud, occasional light rain am and later pm

After a hot drink, at 6:10 we headed back up to La Tigra. Was the weather going to be better? As we entered thick mist we had to wonder but actually, for the most part of our pre breakfast walk, it was warmer and drier than the previous day. We again enjoyed close views of several warblers including Hermit Warbler. We spent quite some time looking for Green Violetear which eventually gave most of us some views. Thankfully Les found another perched just before we stopped for breakfast. Other new birds were Least Flycatcher, Chestnut-capped Brushfinch and Rufous-collared Sparrow. Returning to the hotel to collect our bags, at 10:30 we headed across the city. A petrol station stop gave us our first Tropical Kingbird and a small group of Baltimore Orioles. We drove through wooded hillsides as the weather improved somewhat, until we reached our lunchtime restaurant at 12:30. A buffet lunch with several of us choosing, among other things, jalapeño pepper salad, and somewhat later ice cream. Not connected...

A short walk behind the restaurant was pretty productive with the highlight being a Zone-tailed Hawk. Onward toward Panacam with the weather deteriorating until we reached the 'Panacam 7km' road sign and back into low cloud and drizzle. We soon forgot about the weather as we started down the road. The first bird we stopped for was a Blue-crowned Motmot which led us on to bird after bird. It became clear we needed to put on our coats to keep dry but the Tropical Parula, Violaceous Trogon, a flock of 150 White-collared Swifts, Buff-throated Saltator, Red-lore Parrot, Passerini's Tanager and many more, meant we spend over an hour with various stops before we reached the Lodge itself just before 17:00. Despite the conditions, the feeders were being well used by Violet-crowned Woodnymphs, Rufous-tailed Hummingbird and the mighty Violet Sabrewing. Checking in to our cabins overlooking the forest, we rested a little before dinner at 19.00, then looked forward to tomorrow.

Day 5

Wednesday 5th November

Panacam Lodge environs; Los Naranjos Archeological Park

Weather: Dry grey start clearing to warm then becoming far warmer for the remainder of the day

Meeting at 06:00 for a warm drink, we found ourselves glued to the spot just outside the main Lodge building as the light improved. Stripe-tailed Hummingbird was new, as was our first toucan, a Keel-billed, overhead with Collared Trogon, Smokey-brown Woodpecker, Masked Tityra and the first of many Oropendulas - Chestnut-headed. By 07:00 we were in the bus, heading towards Lake Yojoa. We parked by Los Naranjos Archeological Park and soaked up the birds – Montezuma's Oropendulas, a host of warblers including Philadelphia Vireo and Louisiana Waterthrush, Roadside Hawk, Jacana, Neotropic Cormorant, Bare-throated Tiger Heron, Snail Kites and a Turquoise-browed Motmot. Breakfast called and we enjoyed cake, fruit and yoghurt under the trees - the first time we've needed shade! Then a walk through the grounds of Los Naranjos. The gardens were pretty rich with Rufous-naped Wrens, Crimson-collared and Yellow-winged Tanager, Greyish Saltator and Yellow-bellied Elaenia. Into the forest along a boardwalk. Again, plenty to see with more warblers - new for the trip were Kentucky, Worm-eating, Blue-winged and Golden-winged. We also saw Golden-olive Woodpecker, Ivory-billed Woodcreeper, Red-throated Ant Tanager and two more hummingbirds - Stripe-throated Hermit and Scaly-throated Hummingbird. Our target bird, Ruddy Crake was heard calling.

Next a short drive to Hotel Finca Las Glorias for a leisurely lunch and a short walk near the lake. The weather was much warmer and a few dipped their feet into the swimming pool as we waited for our lunch to arrive. At 14:30 we were fed and watered and went for a short walk. A Lesser Yellow-headed Vulture soared over the reeds and we saw many Snail Kites, Great Kiskadee, Black Phoebe, White-throated Flycatcher, several Fork-tailed Flycatchers and a few more water birds including Limpkin and Sora.

We returned to the bus at 16:00 and arrived back at the lodge by 17:00, stopping only for our first Laughing Falcon. Another great day.

Day 6

Thursday 6th November

Panacam Lodge and walk to the tower; travel to Pico Bonito

Weather: Fine, calm and sunny. Cloudy evening, light rain Pico Bonito.

After yesterday's excellent start we were full of anticipation for dawn at Panacam Lodge. It seemed a little quieter but was still good with Keel-billed Toucan, Hooded Warbler, a surprise Grey-necked Wood Rail walking across the lawn, a tricky White-collared Mannakin and a Wood Thrush. We then took the loop trail to the tower. On the way we saw Squirrel Cuckoo, Long-billed Gnatwren and heard several other species. At the tower the view was fabulous. Les found a perched Keel-billed Toucan, then we heard and saw (thanks to Jafeth), Keel-billed Motmot, Yellow-throated Euphonia and a Black Hawk-Eagle. We carried on and picked up the brilliantly named Northern Bentbill and a few saw an Ochealous Flycatcher. Back at the lodge we packed our bags, had another drink and marvelled at the tree next to the rooms; full of birds - Green Honeycreepers, Crimson-collared and Blue-winged Tanagers, and many warblers. We enjoyed very close views of a Keel-billed Toucan just before leaving. Next a short drive and a short walk to look for Prevost's Ground Sparrow. We heard it and two or three actually saw it before it disappeared. We did have other new birds for the trip; Rufous-collared and Vaux's Swift

overhead and a very close White-breasted Hawk. A distant group of Parrots perched just long enough to see they were Olive-throated. Never wishing to miss an opportunity, several of the group found some trees at our next stop at a petrol station. Here we had Blue-grey Tanager, Tropical Mockingbird and Common Tody-Flycatcher, and Wilson's Plover on the car park.

We reached our lunch stop at 14:00 and enjoyed a large buffet and some more adjacent birding - another Tropical Mockingbird and some Black-bellied Whistling Ducks. We still had a couple of hours to drive so carried on until 17:00 when we reached with impressive Pico Bonito Lodge where we were welcomed with a rum fruit cocktail.

Later, we met the remaining eight people of our party who had arrived a few minutes before us and we had the first of many large tasty meals.

MAIN TOUR

Day 7

Friday 7th November

Pico Bonito grounds and tower and walk down approach road.

Weather: Warm, persistent rain from 08:00-11:30, cloudy and humid, some sun in the afternoon.

A dilemma. How can you possibly have breakfast when the gardens are full of birds? Well you can't really. We tried to sit down and order food but kept getting up to enjoy the White-necked Jacobins, Chestnut-coloured and Black-cheeked Woodpeckers, Bay-breasted Warbler, White-crowned Parrot and Long-billed Hermit. We all managed to get a light breakfast before a short walk through the gardens to the tower. Our target was Lovely Cotinga. Scanning the tree tops, we soon found this stunning blue bird perched on the top. Pico Bonito is probably the easiest place to see this species. The supporting cast included Brown Jay, Collared Aracaris, Keel-billed Toucans, Oliver-throated Parakeet and Masked Tityra. Rain forced us back and under the veranda we enjoyed the hummingbirds. We managed another walk along the drive seeing Ferruginous Pygmy Owl, Ochre-bellied Flycatcher, Rose-throated Becard and a flyover Collared Forest Falcon.

After a "light" lunch (so much food!), we walked back down the drive for mid-afternoon birding, our target being Greater Potoo. What an incredible bird! Other notable species were Grey Hawk, Dusky-capped Flycatcher and Yellow-throated Warbler.

With the checklist done, it was time to relax before dinner.

Day 8

Saturday 8th November

Cuero y Salado Wildlife Refuge, train journey, boat trip and beach. Pico Bonito environs.

Weather: Hot and sunny

With a pre ordered breakfast, we were on the bus by 06:30 heading towards Cuero y Salado Wildlife Refuge. We boarded a little two car train and went into the reserve. We started seeing wetland birds - Jacanas, egrets, herons etc, and stopped for a couple of species; Roadside Hawk and Common Black Hawk. Just before the end of the

track a Magnificent Frigatebird soared high above us. Once we disembarked, we donned life jackets and got on two small boats for our ride through the mangroves. The first bird was a Bare-throated Tiger Heron, then a Linnateed Woodpecker. The bizarre Boat-billed Heron was seen well alongside a Yellow-crowned Night-Heron. We saw five species of Kingfisher - Amazon, Green, Belted, Ringed and American Pygmy. Other notable birds were Squirrel Cuckoo, Black-headed Trogon and Anhinga. We also saw Mantled Howler Monkey, Green Iguana and American Crocodile. Back on dry land and after a quick look at the sea, we took the train back to the bus and returned to the Lodge for lunch.

Some of the group wandered the trails in the afternoon seeing Swainson's Thrush, Ivory-billed Woodcreeper, Buff-throated Foliage-gleaner, Striped-tailed Hummingbird and Yellow-eared Toucanet.

Day 9

Sunday 9th November

Journey to Olanchito and the Rio Aguan Valley

Weather: Hot and sunny

We had a very early start to get into the dry forest area of the Rio Aguan Valley. We made a few stops on the way seeing Mangrove Swallow, White-lored Gnatcatcher, White-fronted Parrot, Yellow-olive Flycatcher, Altamira Oriole, Short-tailed Hawk and Crane Hawk. We also heard a brief call of Lesser Roadrunner.

By 10:00 we were in the dry cactus forest looking for the only endemic Honduran species, the Honduran Emerald. By 10:30 we had seen its favoured flower and then managed several prolonged views of at least six individuals, feeding, fighting and perching. A few also saw Cinnamon Hummingbird and Richard saw Salvin's Emerald. Pride of place on the mammal list went to three Jaguarundis seen crossing the path by two of the group. Other birds were thin on the ground but we did see Scrub Euphonia and White-bellied Wren. We then enjoyed a wonderful home cooked lunch at a nearby ranch with a few trying out the hammocks afterwards as we took a short breather. We then drove back to Pico Bonito.

Day 10

Monday 10th November

Rio Santiago Hummingbird site and trails. First tower, Pico Bonito Lodge

Weather: Persistent overnight rain until 11.30. Cloudy and humid but mainly dry thereafter

We awoke to rain and decided that in these conditions, the best place to birdwatch would be undercover. A 30 minute drive brought us to Rio Santiago where we were able to shelter from the rain and enjoy perhaps a hundred hummingbirds swarming around the many feeders. At first it was hard to take in but we soon worked out the familiar species and those most common. Now we looked for those less familiar; Green-throated Mango, Band-tailed Barbthroat, Brown Violetear, Purple-crowned Fairy and for some, Blue-throated Goldentail and White-bellied Emerald. Around 14 species in total! We looked at the sky. No clear improvement. A few ventured out along the nearby trails adding Golden-hooded Tanager.

Just when we'd made plans to leave, the weather improved so we decided to walk one of the trails. It was a good move. Bird activity started with a Slate-tailed Trogon and continued with Orange-billed Sparrow, Keel-billed Motmot, Lesser Greenlet, Red-capped Mannakin, White-shouldered Tanager, Black-cowled Oriole and Golden-

hooded Tanager. Our hour walk was actually two hours but worth it. Lunch was a little late back at Pico Bonito Lodge (15:15!), and we were ready for it.

Later a few walked the short distance to the first tower for the last hour of daylight seeing Grey Hawk and a Lovely Cotinga.

Day 11

Tuesday 11th November

Pico Bonito Lodge; Long Trail, butterfly farm and owl walk.

Weather: Warm, sunny and calm

Today was, in theory, a free day but the consensus was for a walk along the long trail from the Lodge. We left at 06:40 aiming to be back for lunch. With a large group on narrow forest trails, we split into two and set off in different directions along the loop trail. Over the next few hours many excellent species were seen. The whole group finally got to see a White-breasted Wood-Wren, a bird we'd heard several times. The trail offered periods of inactivity followed by mixed flocks of birds. Highlights were White-breasted Emerald, Black-throated Shrike-Tanager, Sulphur-rumped Flycatcher, King Vulture, White Hawk, Black and White Hawk-Eagle, White-billed Woodcreeper, Dusky Antbird, Black-faced Ant-thrush and Black-faced Grosbeak. Amazingly, the two groups met at the half way point on the trail and swapped sightings! Back just after midday, we ordered lunch and freshened up. A few squeezed in a trip to the Mermaid Falls (more like rapids!), seeing Plain Xenops and Worm-eating Warbler.

The whole group then went on an afternoon wander with Jose and Elmer near the butterfly farm. A flock of migrating Plumbeous Kite flew overhead and we heard Yellow-billed Cacique. Jose and Elmer had a treat in store and led us to a perched Vermiculated Screech-Owl. Just fabulous! Before dinner, Chris told us he'd just seen a Tarantula near the pool. We went up with our torches but it had gone. Nearby was a Giant Marine Toad which was compensation.

A night-time walk for owls yielded a calling Mottled Owl and we saw a couple of Kinkajous (related to the raccoon), which were pretty amazing – apparently they can turn their feet backwards and run in either direction along branches! After dinner, the lure of the moth trap at the back of the garden meant a few of the group saw some amazing hawk-moths and an impressive Rhinoceros Beetle.

Day 12

Wednesday 12th November

Lancetilla Botanical Gardens. Lodge at Pico Bonito

Weather: Hot, sunny and calm with some cloud in the morning.

We were on the road by 06:00. A quick stop for a picnic breakfast gave us a great chance to watch two Common Basilisk or Jesus Christ Lizards while we ate our fruit and cookies. A little further on and we entered Lancetilla Botanical Gardens. Here we could walk the broad roads searching for some of the many birds recorded here. The contrast to the narrow and darker forest trails was welcome and we saw some notable species including White-collared Seed-eaters, Thick-billed Grass-finch, Plain Xenops, Streak-headed Woodcreeper, Squirrel Cuckoo, Gartered Trogon, Passarini's Tanager, the amazing Yellow-bellied Tyrannulet, some uncharacteristically

prolonged views of White-collared Mannakin, Spot-breasted Wren and finally, a Rufous-tailed Jacamar. Nearer the centre, we found a Great Ant-shrike amongst the bamboo. Less obliging were Plain Chachalaca, seen very briefly, and Ruddy Crake, heard calling but remaining out of sight.

It was really quite hot by midday. We drove the short distance to the coastal town of Tela and enjoyed a fabulous meal adjacent to the Caribbean Sea. Of course we did some birdwatching adding Laughing Gull, Brown Pelican and several Magnificent Frigatebirds to the list.

Back at the Lodge by 16:20, we did our final checklist with Elmer and Jose. They were leaving us today, so we thanked them for their hard work and said goodbye. Really great guys!

Our final evening meal was at 19:00. It was delayed for a couple of minutes because Richard had found the Tarantula under a large boulder. A few, but not all of us, were really keen to see it and by the light of our torches, saw this fabulous beast at the entrance to its hole. After dinner, the moth trap attracted some of the group once more. There were different amazing moths, Praying Mantis, large Crickets and a Cicada.

Day 13

Thursday 13th November

Drive to San Sula Pedro airport for flights - USA and onward to LHR

Weather: Warm and sunny with increasing cloud near San Sula Pedro.

With breakfast at 06:30, a few made an early morning dash to the first tower and were rewarded by Bat Hawks feeding, flocks of Keel-billed Toucans and our final views of Lovely Cotinga. We said goodbye to Ray and Lyn who were leaving later to enjoy another Naturetrek trip to Guatemala. After breakfast, we also said goodbye to Les and Joan who had added another three days at Pico Bonito onto their trip. We weren't jealous...much!

The journey to the airport was straightforward, arriving at 10:15. The twelve of us were divided between three different flights to Atlanta, Miami and Houston so we said our goodbyes around midday and started our onward flights to London. Richard may have seen the last birds of the trip with two perched White-tailed Kites alongside the runway!

Thanks for your company on this, the first Naturetrek tour to Honduras. We saw a very respectable number of birds and some great "other wildlife" too. Thanks must go to our excellent guides for finding the birds. The hospitality of the Lodge at Pico Bonito staff was outstanding and great birding just outside the cabins.

Species List

Birds - Main Tour (✓ = recorded but not counted; H = heard only)

	Common name	Scientific name	November						
			7	8	9	10	11	12	13
1	Plain Chachalaca	<i>Ortalis vetula</i>						1	
2	Pied-billed Grebe	<i>Podylimbus podiceps</i>		1					
3	Brown Pelican	<i>Pelecanus occidentalis</i>						4	
4	Neotropic Cormorant	<i>Phalacrocorax brasilianus</i>		1		3		6	
5	Anhinga	<i>Anhinga anhinga</i>		2				2	
6	Magnificent Frigatebird	<i>Fregata magnificens</i>		4				5	
7	Bare-throated Tiger-Heron	<i>Tigrisoma mexicanum</i>		2					
8	Great Blue Heron	<i>Ardea herodias</i>			1			1	
9	Great Egret	<i>Casmerodius albus</i>		15	7	1		1	2
10	Snowy Egret	<i>Egretta thula</i>			1	3			
11	Little Blue Heron	<i>Egretta caerulea</i>		10		1			
12	Cattle Egret	<i>Bubulcus ibis</i>		✓	✓	✓		✓	✓
13	Green Heron	<i>Butorides virescens</i>		5		1			1
14	Yellow-Crowned Night-Heron	<i>Nyctanassa violacea</i>		3					
15	Boat-billed Heron	<i>Cochlearius c. phillipsi</i>		8					
16	White Ibis	<i>Eudocimus albus</i>			9				
17	Jabiru	<i>Jabiru mycteria</i>		1					
18	Wood Stork	<i>Mycteria americana</i>		1				1	
19	Ring-necked Duck	<i>Aythya collaris</i>			4				
20	American Wigeon	<i>Anas Americana</i>		1					
21	Black Vulture	<i>Coragyps atratus</i>	✓	✓	✓	5	6	✓	✓
22	Turkey Vulture	<i>Cathartes aura</i>	✓	✓	✓			✓	✓
23	King Vulture	<i>Sarcoramphus papa</i>					1		
24	Osprey	<i>Pandion haliaetus</i>		1				1	
25	White-tailed Kite	<i>Elanus leucurus</i>							2
26	Plumbeous Kite	<i>Ictinia plumbea</i>					18		
27	Crane Hawk	<i>Geranoospiza caerulescens</i>			4				
28	White Hawk	<i>Leucopternis albicollis</i>					2		
29	Gray Hawk	<i>Buteo nitidus</i>	1	1		1	1	1	
30	Great Black-Hawk	<i>Buteogallus urubitinga</i>					1	1	
31	Common Black-Hawk	<i>Buteogallus anthracinus</i>		7		2	1		
32	Roadside Hawk	<i>Buteo magnirostris</i>		3	3			1	
33	Short-tailed Hawk	<i>Buteo brachyurus</i>			1		1		
34	Broad-winged Hawk	<i>Buteo platypterus</i>				1		1	
35	Black-and-white Hawk-Eagle	<i>Spizastur melanoleucus</i>					2		
36	Black Hawk-Eagle	<i>Spizaetus tyrannus</i>					1	3	
37	Collared Forest-Falcon	<i>Micrastur semitorquatus</i>	1						
38	Crested Caracara	<i>Caracara cheriway</i>			5			1	
39	American Kestrel	<i>Falco sparverius</i>			15	1			
40	Bat Falcon	<i>Falco rufigularis</i>			1		2		2
41	Ruddy Crake	<i>Laterallus ruber</i>						H	
42	American Coot	<i>Fulica Americana</i>			6				
43	Limpkin	<i>Aramus guarana</i>		1					
44	Killdeer	<i>Charadrius vociferous</i>			4				
45	Northern Jacana	<i>Jacana spinosa</i>		6	6				
46	Spotted Sandpiper	<i>Actitis macularius</i>			4	1			
47	Sanderling	<i>Calidris alba</i>		3					

	Common name	Scientific name	November							
			7	8	9	10	11	12	13	
48	Laughing Gull	<i>Larus atricilla</i>							10	
49	Caspian Tern	<i>Sterna caspia</i>								
50	Royal Tern	<i>Sterna maxima</i>		10					15	
51	Sandwich Tern	<i>Sterna sandvicensis</i>							5	
52	Rock Pigeon	<i>Columba livia</i>		1	10				15	1
53	Red-billed Pigeon	<i>Columba flavirostris</i>	20	2				3	3	1
54	White-winged Dove	<i>Zenaida asiatica</i>		10	5				1	4
55	Inca Dove	<i>Columbina inca</i>		1		3			3	2
56	Common Ground-Dove	<i>Columbina passerine</i>			2					
57	Ruddy Ground-Dove	<i>Columbina talpacoti</i>		2	6	2				1
58	Gray-headed Dove	<i>Leptotila plumbeiceps</i>						1		
59	Olive-throated Parakeet	<i>Aratinga nana</i>	5			10	15			
60	White-crowned Parrot	<i>Pionus senilis</i>	40	15		2	2			
61	White-fronted Parrot	<i>Amazona autumnalis</i>			2					
62	Squirrel Cuckoo	<i>Piaya cayana</i>		1					1	
63	Lesser Roadrunner	<i>Geococcyx velox</i>			H					
64	Groove-billed Ani	<i>Crotophaga sulcirostris</i>		4	10		2	1		
65	Vermiculated Screech-Owl	<i>Megascops guatemalae</i>						1		
66	Ferruginous Pygmy-Owl	<i>Glaucidium brasilianum</i>	2	2	H					
67	Mottled Owl	<i>Ciccaba virgata</i>		H	2	H	H			
68	Great Potoo	<i>Nyctibius grandis</i>	1		1		1			
69	White-collared Swift	<i>Streptoprocne zonaris</i>	2				300			
70	Vaux's Swift	<i>Chaetura vauxi</i>			15					
71	Band-tailed Barbthroat	<i>Threnetes ruckeri</i>				1				
72	Long-billed Hermit	<i>Phaethornis longirostris</i>	2	3	2	2	2	1	1	
73	Stripe-throated Hermit	<i>Phaethornis striigularis</i>	4	3	1	2	1			
74	Scaly-breasted Hummingbird	<i>Phaeochroa cuvieri</i>				5		1		
75	Violet Sabrewing	<i>Campylopterus hemileucurus</i>	1	2	1	4	3	2	1	
76	White-necked Jacobin	<i>Florisuga mellivora</i>	10	2	2	5	2	3	2	
77	Brown Violet-ear	<i>Colibri delphinae</i>				3				1
78	Green-breasted Mango	<i>Anthracothorax prevostii</i>				2				
79	Violet-crowned Woodnymph	<i>Thalurania colombica</i>	15			10	6	4	1	
80	Blue-throated Goldentail	<i>Hylocharis eliciae</i>				1				
81	White-bellied Emerald	<i>Amazilia candida</i>				1	1			
82	Rufous-tailed Hummingbird	<i>Amazilia tzacatl</i>	3	3	2	20	15	2	4	
83	Cinnamon Hummingbird	<i>Amazilia rutila</i>			1	1				
84	Honduran Emerald	<i>Amazilia luciae</i>			6					
85	Stripe-tailed Hummingbird	<i>Eupherusa eximia</i>		1		1				
86	Purple-crowned Fairy	<i>Heliodytes barroti</i>				1	1	1

181	Indigo Bunting	<i>Passerina cyanea</i>			1		

Other taxa recorded

Central American Agouti	Deppe's Squirrel - extension	Variegated Squirrel
Mantled Howler Monkey	Long-nosed or Proboscis Bats	Jaguarondi
Kinkajou	Giant Marine Toad	American Crocodile
Basilisk Lizard Jesus Christ lizard	Green Iguana.	Central American Black Terrapin.
Postman butterfly	Blue Morpho butterfly	Rhinoceros Beetle
Stick insect	Fire flies	Band Winged Dragonlet
Tarantula sp		

Naturetrek Facebook

We are delighted to launch the Naturetrek Facebook page so that participants of Naturetrek tours can remain in touch after the holiday and share photos, comments and future travel plans.

Setting up a personal profile at www.facebook.com is quick, free and easy. The [Naturetrek Facebook page](#) is now live; do please pay us a visit!
